

```
//if loops basics

#include <iostream>
using namespace std;

int main()
{

    char letter;

    cout << "Do you want to play this game?\n";
    cin >> letter;

    if (letter == 'y')
    {
        cout << "OK, let's get started.....\n";
    }

    return 0;
}
```
